

The Fairfax-Falls Church Community Services Board

The Fairfax-Falls Church Community Services Board (CSB) serves the community as the public agency responsible for planning, organizing and providing services to persons who have a mental illness, mental retardation, or a substance use disorder. Programs are directly operated or provided by private organizations and are licensed by the Virginia Department of Mental Health, Mental Retardation and Substance Abuse Services.

The CSB was established in 1969 by the joint action of Fairfax County and the Cities of Fairfax and Falls Church.

The CSB functions as part of the Fairfax County Human Services System.

The CSB offers varying combinations of six core services:

- Emergency Services
- Local Inpatient Services
- Outpatient and Case Management Services
- Day Support Services
- Residential Services
- Prevention and Early Intervention Services

The CSB receives funding from Fairfax County, the Cities of Fairfax and Falls Church, the Commonwealth of Virginia, and grants from the Federal government. The CSB is required by State Code to charge for its services. A sliding fee scale is utilized and the CSB also bills Medicaid, Medicare, and insurance companies.

Our Mission

The mission of the Fairfax-Falls Church Community Services Board is to serve Fairfax-Falls Church residents with, or at risk of, severe and persistent mental illness or acute psychiatric/emotional distress; mental retardation; or alcohol or drug abuse or dependency. Our aim is to empower and support the people we serve to live self-determined, productive and valued lives within our community. To accomplish these aims, the CSB must identify, develop or offer programs on prevention, intervention, treatment, rehabilitation, residential and other support services in a personalized, flexible manner appropriate to the needs of each individual and family we serve.

Our Vision

People receive individualized, quality services when they need them in addition to active support and acceptance in the community.

Helping people with mental illness, mental retardation and substance dependence to live productive, healthy, and valued lives within our community through treatment and support services.
